Education

Computer Engineering Student (Bachelor of Engineering). Currently studying programming, computer systems, and software development.

Technical Skills

Programming: Python, C++, JavaScript

Web: HTML, CSS, basic React

Tools: Git, GitHub, VS Code

Projects

Blockchain Voting System – A learning project exploring how blockchain technology can improve transparency in voting systems.

Menstrual Irregularity Detection System – A project studying health data patterns using basic machine learning concepts.

Learning Interests

Interested in learning more about software development, machine learning applications, and building useful technology projects.

Goal

Looking for opportunities to improve technical skills, work on practical projects, and gain real-world experience in software development.
